People tell us our high school years are some of the best years of our lives. But when one starts classes at North that first day in September, they can't help wondering what those "people" were talking about. It's not hard to get into the swing of things in a hurry, though, and before you know it, those best years of your life are skipping by faster than you want to admit. On the previous and following pages is an attempt to record this year- only one of those best years of your life.

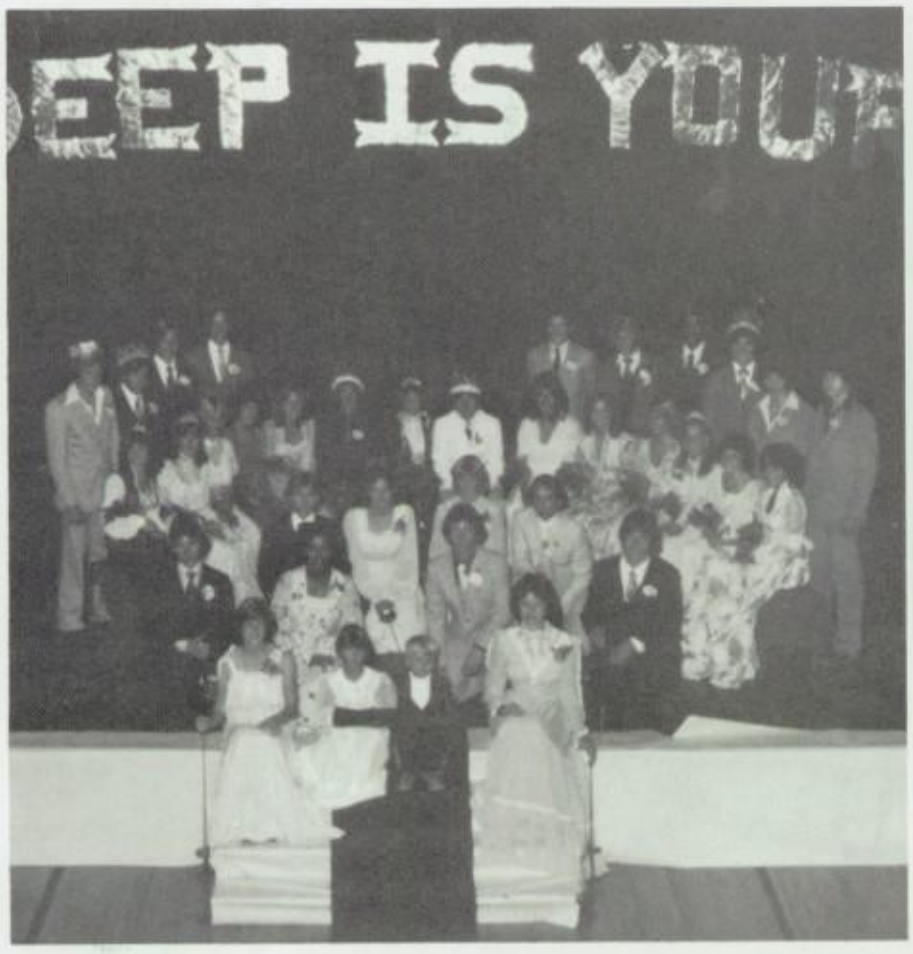
# OUR YEAR 1981

## SPECIAL EVENTS

Dear John, - the softest, kind of hard guy I know.

I have to say that I am at a minor loss of words. It is hard to believe that it is the end of the year. Sometimes I felt as if the time would just fly by, and other times I felt as if it would never end. I have learned alot this year, thanks. I know that I should try + be straight out honest, or else you can really mess things up. I have also learned that I should do things for myself + not for everyone else. Thank you. I want you to know that I wish you the best of everything, life, happiness and everything. I trust you'll find these. It is hard for me to put into words the things that I have to say. I find myself near tears and pray that you I know I won't be seeing you, but I would like to leave this school on a peaceful note. We cannot be friends, for we can't talk to each other but we can between ourselves 'just know.' We did that at one time before, we can do it now. I hope that (even though I have less now) I left a positive impression on you. Not influence, but impression I wanted you to sense a difference in me from others. Not an outward appearance, but an inner peace. I am afraid that I'm leaving you with bad feelings. I hope not. John, you are determined and tough; You can do things on your own and make it. But don't: go better relying on someone? I've told you before, and now, for the last time; God Lo + loves you. Please trust Him. Now, for a little lighter things: I won't ever f the pie or the 1,000 other things you've done to embarrass me. You're cruel! Too honest sometimes. (PORKY - you creep!) You're easy to talk to but a little mean. I sincerely want things to go well with you. I care + am concerned. I had a great + Special Sr. Year.

# "How Deep Is Your Love"



On October 10th the students and staff gathered in the gymnasium to see the canidates they nominated take part in the coronation ceromony. This year a Freshman class was added to homecoming activities. The theme this year for homecoming was "How Deep is Your Love". The Nordiques sang and the band played during different parts of the ceremony. The Masters of ceremony were Bill Wicker and Tracy Bransford.

ope that your Senior year is better than these past 3 are. I'm sure they will be. Best things are already starting to pick up !! Have a Great life + please keep that ufil smile! Just to leave you w/ things I hope you will get straight: I don't bleach hair! And I'm not going to be fat!!! When in doubt, or when you want to ask me anything ead the P.S. Love always, Kristen P.S. Yeah Maybe! God Bless You.

King Keith Peterson, Queen MaryKay Converse, King Warren Sbragia.

This Year was an unusual Homecoming because of a tie vote, Two Kings were crowned instead of one. The votes were very close between all three candidates. Everyone was surprised because no one expected or had seen this happen before at North.

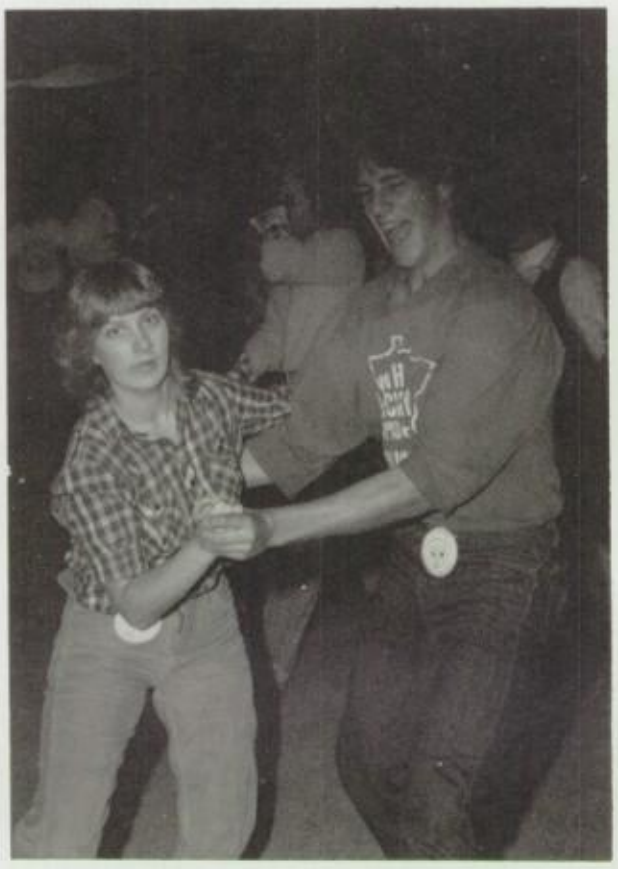
# Homecoming Dance



Everyone at the Dance was in high spirit because we won the game. It was a little crowded because of the Freshmen but that didn't seem to slow anyone down or keep them from dancing. Every kind of dance was danced that night. Everyone seemed to be having fun and that's what counts!

NORTH HIGH

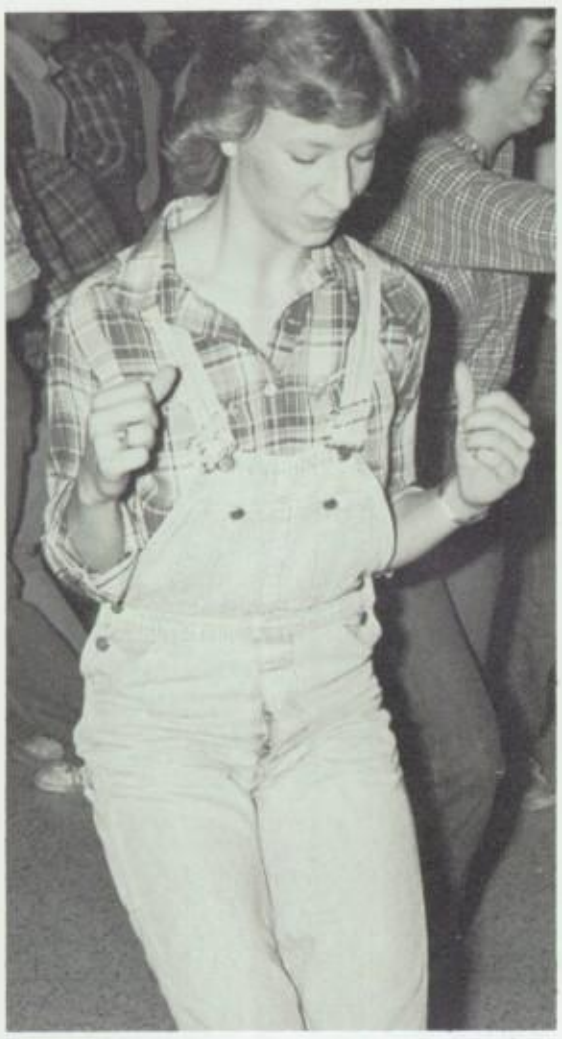
# Seneca Falls Convention . . .

In Male/Female, students studied various topics, all related to men and women and how they interact. One of the projects the class was involved in was the Seneca Falls convention of 1984. The classes studied events leading up to the convention and the effects on the Women's Rights Movement of today. The students participating in the convention gave arguments for and against the issues. The four issues were 1. Women/Men and Bible; 2. Wages and Jobs; 3. Double Standard; 4. The Vote.

# A Step Back In Time

The guys were briefed on how they would've reacted to their wives and daughters involvement in the Seneca Falls convention, so when the re-inactment took place they all stayed in character. Needless to say, more than a few got carried away with telling the girls they should stay at home and take care of the kids. The girls, on the other hand, were busy sticking up for their rights. Some played Widows, some were Spinsters, some were Wives tired of waiting on their husbands hand and foot. The whole exercise was designed as a learning experience.

# Sadie Hawkins Dance



The Sadie Hawkins Dance turned out to be a very surprising one. This year more girls than ever in the past got up the nerve to ask that favorite guy. The dance itself was a whole lot of fun and everyone enjoyed themselves especially on their honeymoons in the hay. We would like to give special thanks to Mike Koslowski, Blake Stahnke, and Mark Kennedy, graduates of 1980 for their great job of being our D.J.'s.

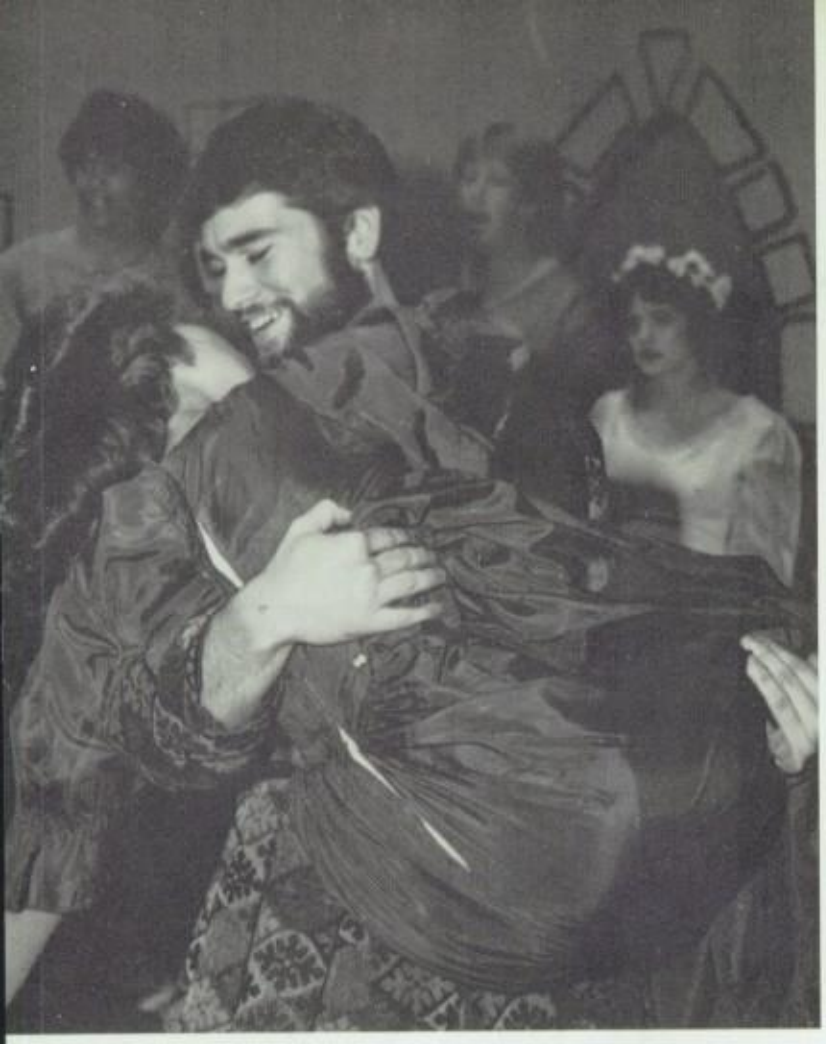
500 LBS.



It began in September with three sessions of auditions and then the posting of the cast list — accompanied by squeals of joy and tears. The first rehearsals were slow and disjointed — stiff lines and flat notes.

Dancing started in late October. The chorus got stronger. The set went up. The directors started to laugh and say, "I like it!" instead of "It needs more work."

On the first week-end in December, ONCE UPON A MATTRESS burst on to North High's stage in all its musical warmth and humor. There were full houses and rave reviews. And then it was all over . . . joy and tears again. Like a "genuine princess", such happy memories are "exceedingly rare."

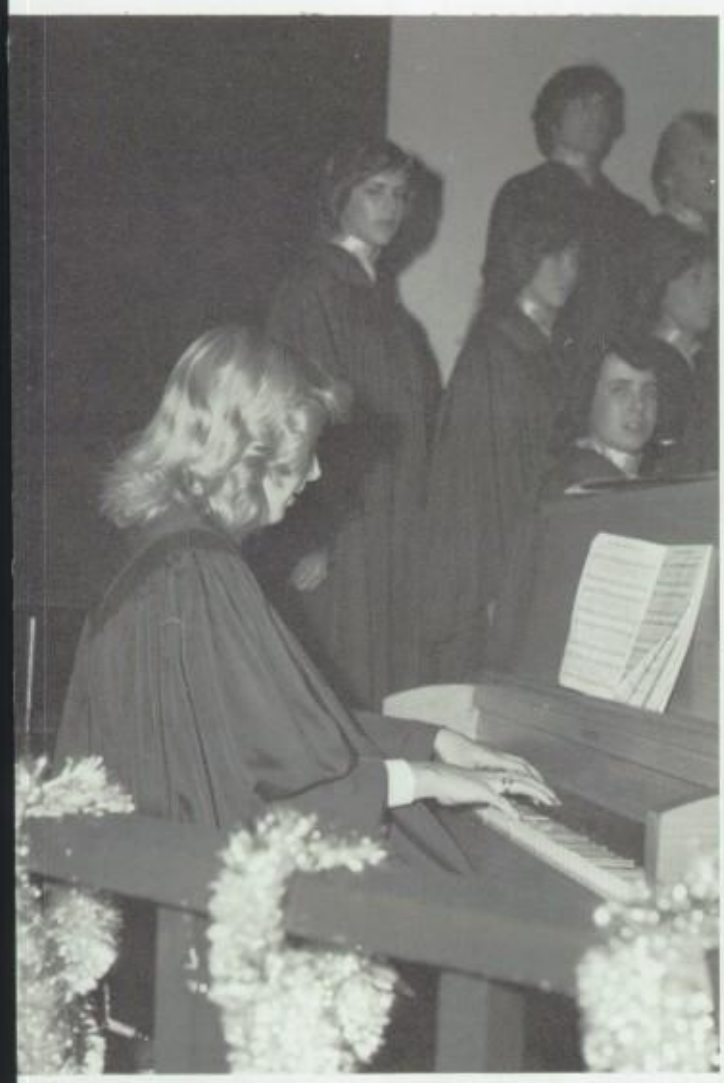
# Band Christmas Concert

Looking pretty for a special occasion . . .

How did this piece go again?

# Choir Christmas Concert

Choir is a lot of work, but singing is our joy!

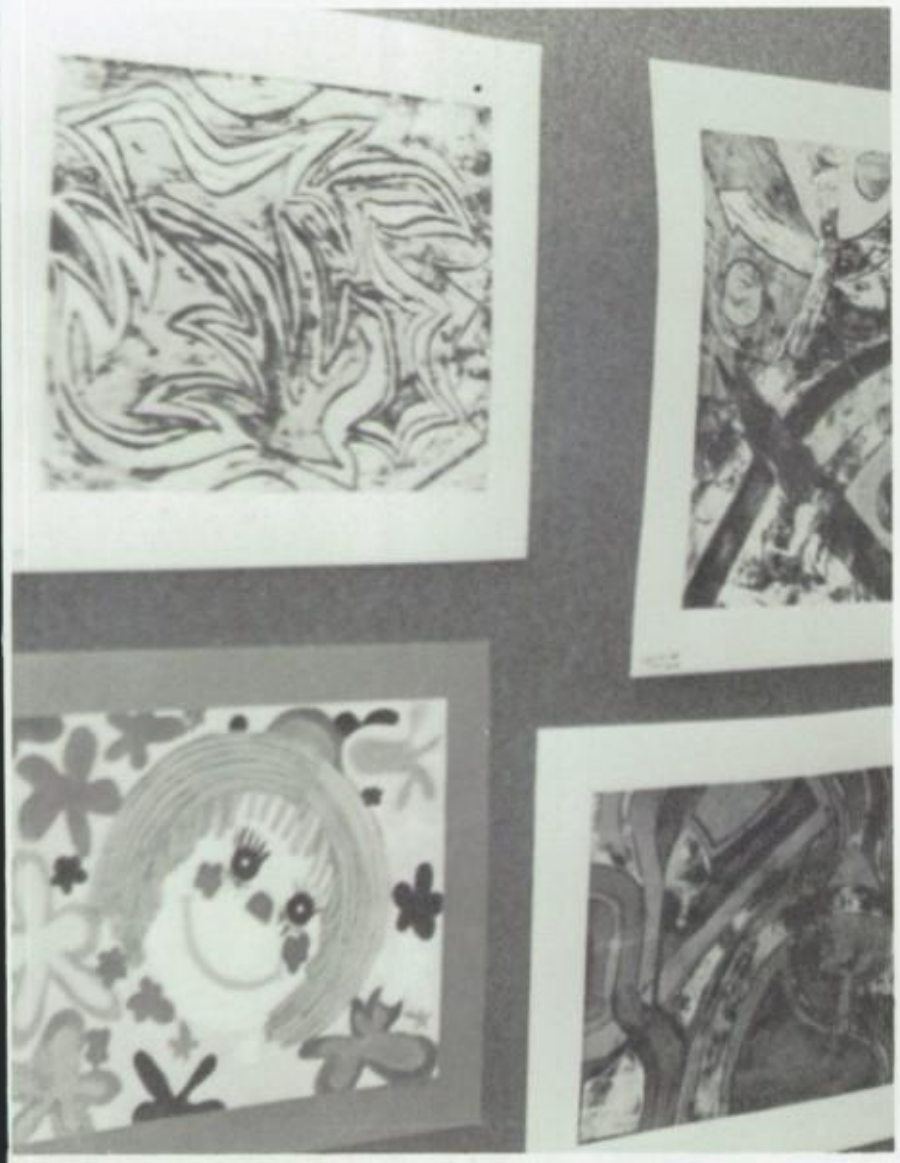


# 9th Grade Band And Choir Concert . . .

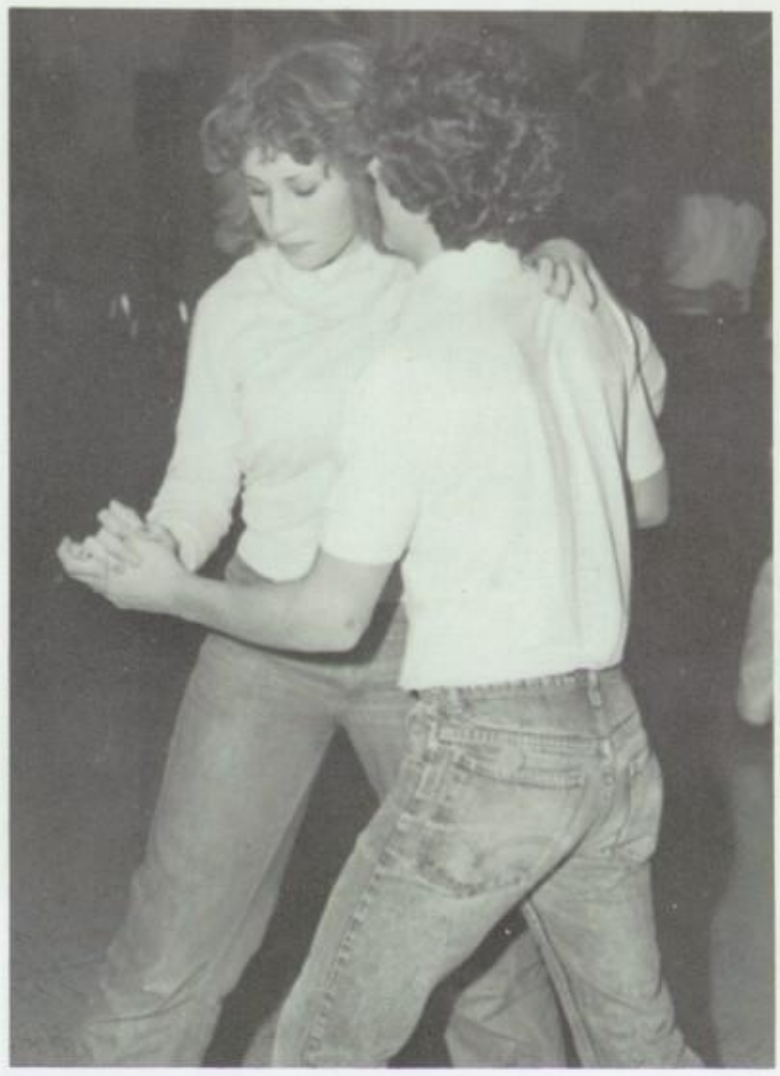
The Ninth Grade Band and Choir consists of many talented students. The number of students that joined these two groups was higher than expected. The Christmas Concert was the first concert they did, but the performance was excellent and went beautifully.

## Christmas 1980

# Student Art Work A Great Success



# Christmas Polka Fest



This dance had a little trouble getting started. Seems like no one was in the Christmas spirit. There wasn't a very big turnout because there were too many other things going on. Even though the crowd was small, everyone seemed to enjoy themselves. The polka fest brought many freshmen and sophomores because they had just finished their dance unit in phy-ed. They had a little trouble getting the steps down right, but after awhile they seemed to come natural. At times it seemed like there would be no couples dancing because of the guys shyness. With the girls persuasion, soon the dance floor was filled. This is what made it all worthwhile.

This year the concert choir will be taking a trip to Calf. These students have a special way of touching people with the music they bring them. This year they gave two concerts at North High. During Christmas they gave one of their concerts, but alos went to many other plases and companies in Northe St. Paul and Maplewood to bring many other people some Christmas cheer. They also gave a spring concert after they returned from their trip. These students in this choir do many different things to raise the money for their trip. Selling different kinds of candies door to door, and popcorn at the North High sports events. That is another talent this students have.

MDE (Marketing and Distributive Education) is a program that consists of four different parts. The first part is to teach the students sales, retailing, merchandising, and of course Marketing and Distribution, in the classroom. We learn how to be an effective salesperson, how to set up displays, operate a cash register, and most importantly, how to work with people.

The second part is the school store (Bear Necessities) where we get our hands on experience in running the cash register, setting up displays, tacking inventory, and working with people.

The third part of the program is DECA (Distributive Education Clubs of America). Belonging to the club includes many out-of-school activities such as attending Seminars, fundrasiers, and involement in sales and marketing competition which North DECA attended on Feb 4th at the Maplewood Holiday Inn and took many first place trophies, we took home 40 trophies out of 100 when competiting against schools all over Minnesota. We hope to advance to National competition to compete with schools from many different states.

The fourth part of our program is our jobs; this is A significant part of the program. Students work from 10 to 32 hours per week at a supervised training station for which we receive classroom credits toward graduation. This gives us actual work experience in the world of business.

All of these parts put together give us a great learning experience, group involvement, confidence, and leadership abilities.

# Boys Soccer Team Goes To State . . . Again

This year the Soccer team consisted of 9 Seniors, 10 Juniors, and 1 Freshman. The team had many rough games through the year. The Conference record for the Polars were 11 wins and 2 defeats. We lost to a tough So. St. Paul team and a very lucky Tartan team. The Conference Championship came down to the last game of the season. North beat So. St. Paul for the Title.

In section play we were able to defeat Tartan to gain the Title and a chance to play in the State Tournament for the second year in a row. A lot of people were disappointed that we lost in the opening game to Burnsville by the score of 3 to 1. The Soccer team would like to thank all the fans who came to the games and cheered the team on to victory.

Cross Country running is alot more work than people think. You have to work hard to improve a little. You have to know how to run the race and know the course fairly well to run a good race. You have to know the hills, the ups and downs, when to pace yourself, and when to push so you don't slow down. You have to be mentally tough also. You cannot give into the pain of the race. When it hurts, go faster. You have to work with and against the wind. YOU KNOW at the end of the race if you've done good or not.

ABOVE RIGHT: Go to your mark . . . Get set . . . Go! . . . Sure looks like a good start from here. ABOVE: Ah! The Nestea plunge.

We began our season this year with many new faces. With only 4 Juniors returning and no Seniors, the new girls really didn't know what to expect (the Juniors knew!). Of the new faces we received 1 assistant coach, a diving coach (Oh Bob!) and over half the team were Freshmen.

We had many fun bus rides, including the one to Blaine in particular.

Our first win was one long awaited and everyone was shocked to what "Those Amazing Animals" can do.

Our team this year was a close and fun team and everyone giving 100%, even though there weren't many wins to show for it. Not everything was fun, like the 5:45 a.m. practices, and the 2 and a half hour, after school practices when you had tons of homework to do, but it was a rewarding season and we will all be looking forward to next year. Maybe next year we will see some familar faces in the balcony (Hint, Hint).

# Harvey J. Feierabend

A colleague, a friend, a thoughtful teacher, a craftsman, a good father and husband; he was one or more of these to his family, the people of North High and the Community. The teachers with whom he worked remember the many extra hours he spent preparing special projects to meet the needs of his students. The students of North High will long remember the time spent in the classroom with Harv. Harv found it difficult to say no to any request for his time. After serving in World War II, as a Naval Officer, he dedicated himself to his school and his students, to his family, and his close friends.

After teaching for about 29 years at North, he gave us, the benefactors, the real meaning to "the happiness of giving".

John- Well, it's been a pretty good semester. Hopefully all the teasing & dirty (nasty) names you kept on saying was all in fun. I guess it just ticked me off sometimes. a sweet girl like me can only take so much! Hope you enjoy your senior year (without me to punch around)! Ha And if you fail this class - make it up Next year!. You always did enjoy this class!! Good luck & Take Care!

Love,
Sheila

John,
Well, what can I say to a guy who showers me with compliments every day except thanks! You always lift my spirits when I'm down. I'm glad I had you in 5th hour and I enjoyed going with the choir to California. You're a great kid John and I hope I see you over the summer and next year.

Love & Friends Always,

Linda Lokker
